Smartcard Technology Built to Order

Eliminating All Cash Transactions

ExpoTech-Pay offers the business who wish to accept credit cards a wide range of advanced payment systems, combined with a secure payment gateway for a one-source credit card processing solution. You'll be able to customize a merchant account that best fits your small business needs and goals, while significantly increasing sales and lowering costs. As a leading expert in innovative data security systems, ExpoTech-Pay can help to protect your business against potential fraud.

POS Systems
Point-of-sale processing equipment is ideal for merchants who want almost instant authorization for credit cards, debit cards and checks. ExpoTech-Pay has a variety of systems from which to choose.

Secure Hosted Payment Gateway
ExpoTech-Pay's secure payment gateway lets you accept all major credit cards, debit cards and ACH payments.
Features such as reports, batching, returns and voids, and advanced management functions help improve business operations.

PCI certified
Compliance with standards not only protects your cardholder data and prevents theft, but it's also a requirement for any merchant who accepts credit cards for business. With ExpoTech-Pay advanced security features, including tokenization and end-to-end encryption (E2EE),you can be sure your small business and your customers are protected from potential risk.
